

## RVS Master™ FuelEX<sup>X</sup> Gasoline/Petrol Additive

### Application Instructions

- RVS Master™ FuelEX<sup>X</sup> Gasoline/Petrol Fuel Additive:
  - Increases octane number (5-7 units)
  - Increases power (about 10%)
  - Reduces fuel consumption (about 10%)
  - Reduces CO, CH, NO<sub>x</sub> emissions (25-50%)
  - Cleanses injectors, combustion chamber and exhaust gases catalyst from carbon and sedimentation
  - Makes it easier to start the engine in cold weather conditions
  - Binds the water formed in the fuel tank

#### Treatment Procedure

**Note:** Do not skip any of the steps in the following procedure. Doing so can significantly diminish your results.

Shake Bottle well until there is no residue on bottom of bottle.

Add to fuel tank prior to fill up. One bottle treats 150 litres of petrol, ie: 10 millilitres for 15 litres of petrol.

You can now drive your car normally at your own time.

#### Storage and safety instructions

Store at temperatures below +40 °C (105 °F). In case of skin contact, wash with lukewarm water and soap. If the product gets in your eyes, it may cause irritation – flush with water and consult a doctor if the irritation continues. If the product is swallowed, flush the mouth with water and consult a doctor. Do not induce vomiting! Keep product out of reach of children.
